This event, which winds through about a dozen of our village and some Smithtown streets, takes approximately 1 hr. and 30 min. from start to finish. For the safety of the runners and firefighters, it is necessary to temporarily close some of the village and town roads as the race progresses through them. This circular is intended to provide details on the approximate times each major area will be closed. We request, if it is at all possible, that you refrain from driving in the village during this event. In the event you find it necessary to drive, we hope that this information will assist you in traveling through the village with the least possible inconvenience.

If it is urgent that you leave your home while your area is closed, call 584-5760 or 445-8447. A police vehicle will escort you to the nearest open road.
